III International Scientific Conference
"Libraries of the Higher Educational Institutions: Experience and Prospects" Odessa, 4-6 July 2018

Renata Włodarczyk | Sales Manager
„Extension of the spectrum of sources as a prerequisite for the development of research activities of modern libraries”
Libraries and librarians are changing

- The advent of the internet and digitalization of library resources totally changed the earlier meaning of library from document preservation to knowledge management
- The modern librarian is not a custodian of documents but an information provider
- One of the major changes we see in academic libraries is the use of new innovating technologies for learning and research
- Modern library goes online!
Modern library and its resources should be

Accessed anywhere, Anytime, On any device.
EBSCO provides solution for libraries in digital age

- 70 years’ experience in serving the information needs of libraries
- We follow changes of global trends in librarianship
- We listen to our customers (both librarians and end users) and change our products based on their suggestions
- We are helping universities to spread their academic output by adding journals published by universities to our databases
85% libraries worldwide trust us and use EBSCO products and services
